# Hey modern day wonderful witchy wizard!

I'm glad you're here! I have so much that I'm pumped to share with you to help you make 2019 your most magical year yet!

This PDF is just one of many treasures that I have to share. This document is part of the philosopher's stone pack that I created as my FREE offering to help you shift your vibes so that you can welcome exactly what you want into your life in 2019!

The other part of this Philosopher's Stone pack is my webinar found here at:

## What's a Philosopher's Stone?

- a legendary alchemical substance
- central symbol of the mystical terminology of alchemy
- symbolizing perfection at its finest, enlightenment, and heavenly bliss.

Oooo! Fancy!

So how does this PDF script relate to the Philosopher's stone?  
Well! By using the information I give you, you can begin to create some alchemy in your own life by turning the mundane into gold!  
Your life can be way more sparkly!

Use the follow script as a tool to help you manifest what you want in 2019. I recommend writing it by hand, record your voice saying the words in an audio app or read it out loud (with conviction!) every day.

Or if we're going to be realistic, aim for at least once a week. You can modify or add to it as the year goes on.

Happy Manifesting!
